## 8. Icon Description

The 5-year icon refers to the "valid environment-friendly use period", not the product quality assurance period. Electronic products contain toxic and harmful substances such as lead, mercury and cadmium. The overdue use of these products may lead to leakage or mutation of these toxic and harmful substances, cause environment pollution or serious damage to people and property. The term of "environment-friendly use period" means that all electronic products shall be used within this validity period. We are free of any responsibility against safety issues caused by using the product beyond its safe service life.

## 9. Operation Instructions

When charging wirelessly:

This product has an auto-wake function for wireless charging, just place your phone onto it, and it will automatically start charging. But for some phones, due to compatibility issues, the wireless charging function needs to be activated by pressing the button. Press it once, the battery indicator will light up and the wireless charging is turned on, and you can place your device on. If there's no load connected for the wireless charging in 30s, the product will automatically shut off the wireless charging function.

## 10. Wireless Charging Tips

Place your phone onto the wireless charging area for wireless charging. The distance between the charging phone and the power bank must be within 8mm for wireless charging to work, if not it will stop charging, and you need to adjust the phone's position.
