

# Using the Belkin INC004 as a laptop stand

The **Belkin CONNECT™ USB-C 11-in-1 Multiport Dock, INC004** is the perfect all-in-one solution to connect your USB-C® laptop to multiple devices. Create your ultimate workstation or lead a seamless online presentation by conveniently connecting your laptop to monitors, projectors, SD cards, ethernet networking, and USB thumb drives.

The Belkin INC004 has a unique wedge-shaped design that allows it to serve as a laptop stand to help angle your laptop when using. This helps keep items on your workspace neat and tidy by hiding the dock below the computer and allowing all ports to come out at the back.

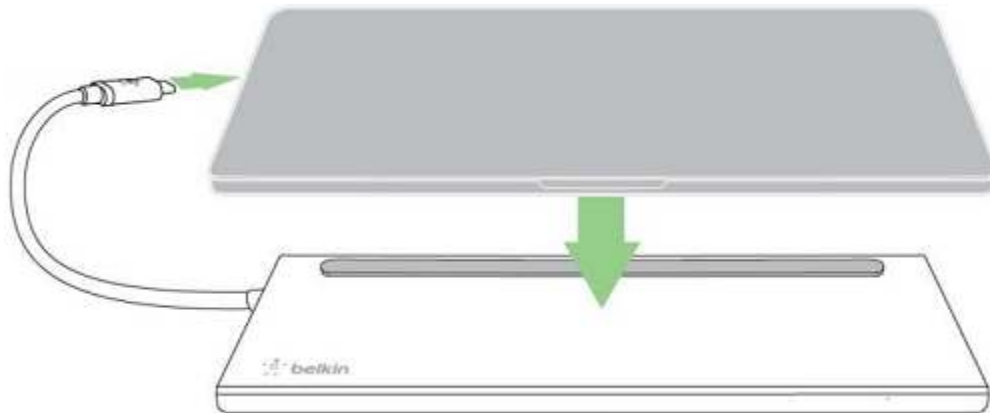

Follow the instructions below to use the Belkin INC004 as a laptop stand:

## Step 1:

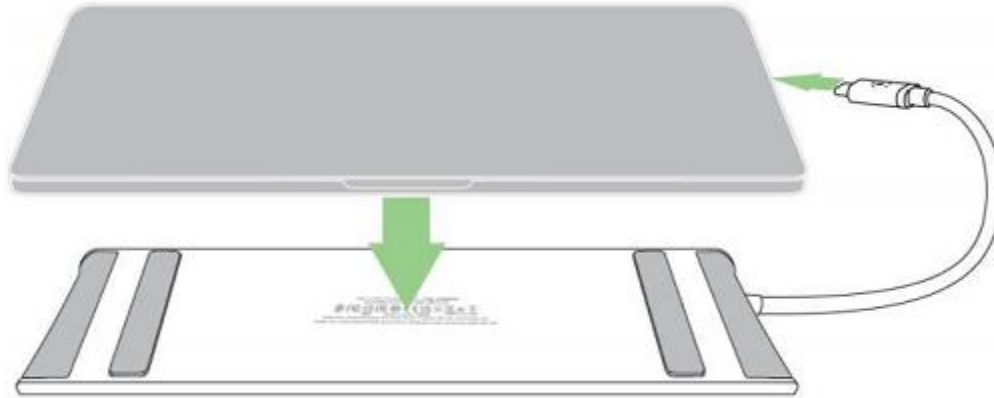

Place the laptop on the dock's top panel.

## Step 2:

Connect the dock's built-in cable to your laptop's USB-C port.

**NOTE:** The Belkin INC004's design also allows for it to be flipped over to better suit your laptops USB-C port placement.
