Features

Gutter wand and 13 degree wand can connect five different nozzles to solve your situation.

Connect gutter wand to 13 degree wand to clean hard-to-reach places on the roof corner

Our Telescopic Lance can help save you from making a climb up the ladder. Connect 13 degree extension rod, it can extend to a whopping 18' (18 foot) length with just a flick of the wrist. It is easily operated thanks to low minimum pressures and an easy grip trigger gun. It can even help you clean your eaves, gutters, glass and high sided vehicles.

Accessories Introduction

5 Spary Nozzle Tips:

Red - 0 degrees - areas that are high and hard to reach; clean crevices in sidewalks or driveways.

Yellow - 15 degrees - use on concrete, brick and other hard surfaces with stubborn stains.

Green - 25 degrees - use on painted surfaces, wood siding, fences and lawn mowers.

White - 40 degrees - use on windows and screens.

Black - 65 degrees - use to spray soaps and detergents.

5 different angle nozzles meet your need in different situations.

Gutter Wand:

U shaped to clean from below gutter, gets right into edges and awkward corners. Save your cleaning time.

The rod outlet can be connected to five-color nozzles.

Telescoping Spray Wand:

Telescoping Spray Wand for pressure washer reaches tall areas up to 18 ft away.

Whether you're cleaning you gutters or large equipment, this telescoping wand can cut your washing time in half and from the safety of the ground.

13 Degrees Extension Wand:

13 degrees extension wand makes hard to reach places like roof corners easy to clean.
