

# 12kg Series 11 Front Loader Washer, Graphite

Series 11 | Front Load

Graphite

Discover ultimate fabric care with the 12kg Series 11 Front Loader. Tailored cleaning for up to 12 fibre types and 46 care results helps care for a range of fabrics, from delicates to durables. Combine with a Heat Pump Dryer and Fabric Care Cabinet to create a seamless ecosystem that supports your wardrobe care.

- Versatile design lets the washer work alone or control a display-free heat pump dryer via its intuitive touchscreen
- Advanced dispensing design enables convenient, tailored care for fabrics

- Steam Refresh cycle de-wrinkles, deodorises, and revives clothes for ready-to-wear convenience
- Active venting is designed to reduce creases and humidity, helping keep the drum fresh after each wash

### Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
