

Three ways to brew

Brew a single cup with a K-Cup® pod or ground coffee, or brew up to 10 cups using your favorite ground coffee. You can brew up to a 10 oz. single cup with a pod or you can brew into 14 oz., 7" tall travel mug with coffee grounds.

10 cup stainless steel carafe keeps coffee hot

The thermal carafe of this Hamilton Beach coffee maker keeps coffee hot and fresh-tasting long after it's brewed, and you can get your first cup fast with Auto Pause & Pour because it lets you pour a cup as coffee brews.

Single-serve side fits a cup or travel mug

Simply remove the cup rest to brew into a 7" tall travel mug, or leave it in place to brew into a traditional cup — the choice is yours with this single cup coffee maker.

Wake up to hot coffee with easy-touch programming

Make every morning easier by waking up to a carafe full of hot coffee. Simply fill the carafe side with water and coffee the night before and set your morning brew time with Easy-Touch programming.

2 easy-fill water reservoirs

Each brewing side on this programmable coffee maker has its own water reservoir that's easy to fill and features a water window, so you always know exactly how much water to add.
