## ASSEMBLY INSTRUCTIONS

### 5ft Polar Wishes LED Reindeer with Sleigh

## USE AND CARE GUIDE

### PLANNING ASSEMBLY

Carefully remove all the parts from the box and place them on the ground. Many parts are connected by the lighting string that runs throughout the item. Take special care not to pull, cut or damage the lighting string. Read the entire manual prior to assembly and identify all the parts included in the package against the parts list. It is recommended to assemble parts of the product while laying flat on the ground versus standing the item up to assemble the parts. If any parts are missing or damaged do not attempt assembly but contact our customer service center or return to place of purchase with purchase receipt.

Assembly of this product may require more than one person.

### Pre-Operation

**CAUTION:** Grasp the plug to insert or remove from the power source. Do not unplug by pulling on cord.

**CAUTION:** The lighting string on this product is rated at 9.6 Watts (0.08 Amps) for Standing Deer and rated at 4.8 Watts (0.04 Amps) for Sleigh. Do not overload. Do not connect to another lighting string, decorative outfit or other electrical products. Before you use or re-use this product inspect it carefully. Discard or return to place of purchase with purchase receipt if the product has cuts, damage, frayed wire insulation on cords, cracks in the socket enclosures, loose connections, exposed copper wire or other obvious damage.

### Care and Cleaning

- Carefully remove the product from wherever it is placed. This helps to avoid any undue strain or stress on the product connections, and wires. If the product is placed somewhere other than the ground it should be well secured, flat and stable.
- Carefully disassemble the unit taking caution not to cut any electrical wires.
- Wipe the unit with a damp cloth and allow the unit to dry before storing.
- Store the product neatly in a cool, dry location protected from sunlight.

### Troubleshooting

- Ensure that the ground or surface that the item sits on is flat and level
- Be sure to plug the item correctly to a wall outlet or a UL Listed Power Cord
- Ensure all parts are assembled properly per the Instruction Manual
- If the item does not light check for loose or broken bulbs and connections
- Do not plug into other electrical items
- If the item has multiple Light String Cords be sure to plug in all cords
- Check for Broken or Burned Out Fuse In Plug

## Guarantee

#### What is Covered

The product is intended for residential seasonal use for 90 days per year. This product is covered by a 90 days limited guarantee due to defects in material and workmanship. Return the product with purchase receipts to the location of purchase for refund within 90 days of purchase.

#### What is Not Covered

This warranty does not cover commercial use, normal wear and tear, products not used in accordance with directions provided on or with the product, burn out of bulbs or LEDs, batteries, products that have been subjected to unauthorized repair and/or modification and damage caused by shipping and improper handling, alterations, misuse, in store display models or accidents. Q	Spare Bulb	6
R	Plastic Tie	30
S	Ground Stake	8

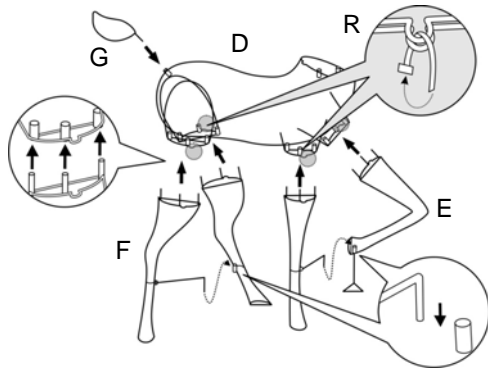

#### Diagram of Parts

# ASSEMBLY

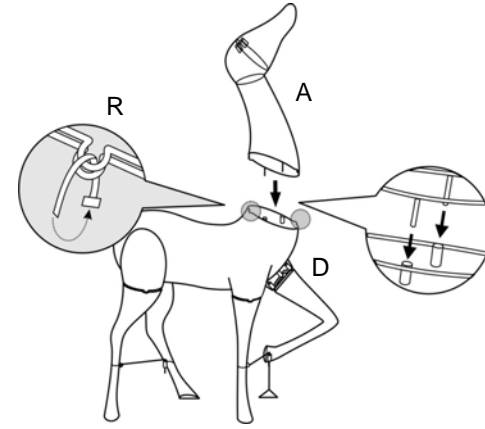

## 1 DEER: Assembling the Legs and Tail to the Body

Insert the metal connecting rods on the top of each Leg (E,F) into the connecting holes on the underside of the Body (D) and fasten together at the connecting loops with the Plastic Ties (R). The Legs come with metal bars attached to stabilize the Deer. Insert the hooked end of the metal bars into the metal nut on the opposite Leg. Insert the connecting rod on the Tail (G) into the connecting hole at the rear of the Body (D).

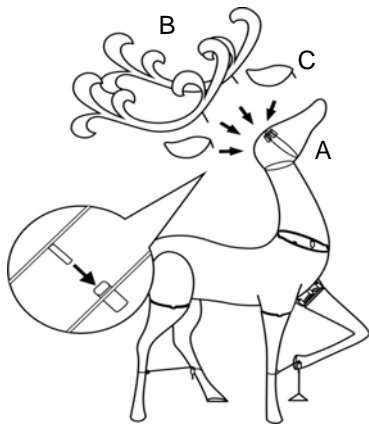

## 2 DEER: Assembling the Head/Neck to the Body

Insert the connecting rods on the bottom of the Head/Neck (A) into the matching connecting holes on the top front of the Body (D) and fasten together at the connecting loops with the Plastic Ties (R).

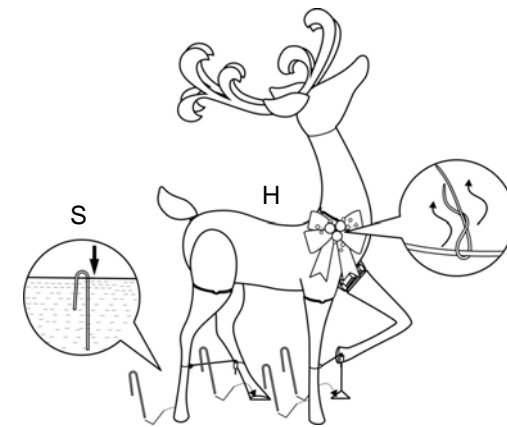

## 3 DEER: Assembling the Antlers and Ears to the Head/Neck

Insert the connecting rods on both Antlers and Ears (B,C) into the matching connecting holes on the top of Head (A). Note: The Ears go to the outside of the Antlers.

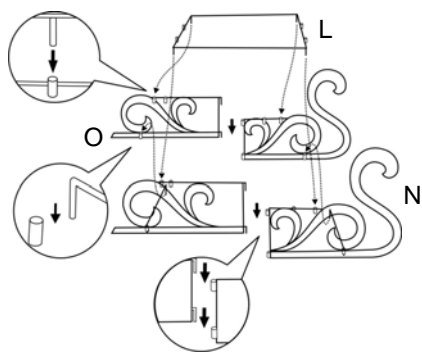

## 4 DEER: Assembling the Bow and Ground Stakes

Insert the wires ties on the back side of the Bow (H) through the holes of the Body material then twist the wires together around the metal frame or material to secure. Insert the Ground Stakes (S) over the metal frame at each hoof then firmly into the ground.

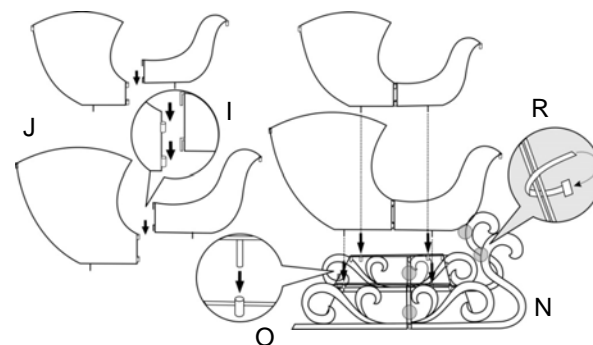

## 5 SLEIGH: Assembling the Front & Back Runners and the Seat Panel

Insert the two connecting rods on the front edge of the Right and Left Back Runners (O) into the connecting holes on the back edge of the Right and Left Front Runners (N). The Runners come with metal bars to stabilize the Sleigh. Attach the hooked end of the metal bars to the connecting hole on the inside of the opposite Runner (N,O). Insert the connecting rods of the Seat Panel (L) into the matching connecting holes of the Front and Back Runner (N,O). Secure with Plastic Ties around the metal frame.

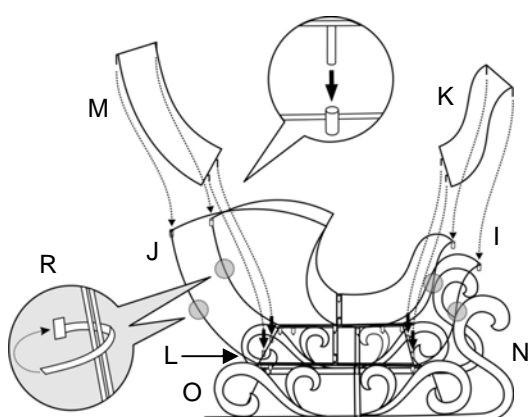

## 6 SLEIGH: Assembling the Front & Back Side Panels to the Runners

Insert the two connecting rods on the back edge of the Front Right and Left Side Panels (I) into the connecting holes on the front edge of the Right and Left Back Side Panels (J). Insert the connecting rods on the bottom of the Side Panel (I,J) into the matching holes on the top of the Runners (N,O) and fasten together at the connecting loops and over the metal frames with the Plastic Ties (R).

## 7 SLEIGH: Assembling the Front and Back Panels

Insert the connecting rods of the Front and Back Panels (K,M) into the matching holes of the Front and Back of Seat Panel (L) and the Side Panels (I,J) then fasten all parts over the metal frames with the Plastic Ties (R).

## 8 SLEIGH: Assembling the Bow and Ground Stakes

Insert the tie wires on the back side of the Bow (H) through the material on the side of the Sleigh then twist the wires together around the material or metal frame to secure. Insert the Ground Stakes (S) over the metal frame at the four corners of the Sleighs runners then firmly into the ground.
