

Important notice about the 12VHPWR/12V-2x6 connector

If cable bending is required for cable management, please leave sufficient length of 35mm (1.38 inches) away from the connector housing to make your bends as shown below:

The 12VHPWR/12V-2x6 connector is a high density design so please avoid bending the cable within 35mm (1.38 inches) to the connector housing.
