

# SOL-ARK® 15K & DISCOVER ENERGY HELIOS

Pairing the Sol-Ark 15K-2P Hybrid Inverter with the Discover Helios delivers a robust, whole-home backup power solution built for performance, resilience, and scalability. They are the ideal choice for home backup power as an easy turnkey solution for homeowners seeking energy independence, resilience, and long-term cost savings.

Sol-Ark's 15K is designed to optimize your home's energy usage with powerful AC output, built-in TOU functionality, DC to DC architecture to maximize batteries, and seamless grid-tied and off-grid operation. When matched with the Discover Helios, featuring 16 kWh of usable energy, optimized space utilization for a more compact footprint, and simple energy storage expansion, this system excels in powering large loads, reducing grid dependence, and providing peace of mind during outages.

Feature	Sol-Ark 15K-2P	Discover Energy Helios	Combined System Advantage
<b>Ideal Applications</b>	Whole home backup power; off-grid energy independence	Energy backup, EV integration	True whole-home backup with time-of-use savings and scalable energy independence
<b>Battery Compatibility</b>	Compatible with UL-certified 48V lithium batteries	Sol-Ark optimized; Compatible with most hybrid inverters	Plug-and-play architecture simplifies integration and ensures maximum efficiency
<b>Backup Performance</b>	<5ms transfer speed; UPS-grade	Maintains power to critical and large circuits	Reliable backup for sensitive electronics and critical home functions
<b>Installation Flexibility</b>	Wall-mount inverter with 200 A passthrough	Wall or floor-mount; indoor/outdoor (IP65), and optional custom conduit box	Flexible deployment across garage, utility room, or exterior wall
<b>Smart Monitoring</b>	Built-in touchscreen + remote monitoring platform	RS485/CAN/WiFi/Bluetooth + app/web tools with the Discover Lynk II Gateway	Unified control and visibility for both inverter and battery performance

	<b>SOL-ARK15K-2P (15/13kW) + Discover Helios 16.1kWh (10.2kW)</b>	<b>Tesla PW3 (15.4/11.5kW) + Batt 13.5kWh (11.5kW)</b>	<b>EG4 FlexBoss21 (16/12kW) + 14.3kWh (7kW)</b>	<b>FranklinWH aPower 2 (10kW) 15.0kWh (10kW)</b>
<b>Power</b>	15kW AC with solar, 13kW AC batts	11.5kW AC, configurable up to 15.4kW	16kW AC with solar, 12kW AC batts	10kW AC
<b>Grid Passthrough</b>	200A	200A (Requires Tesla Gateway)	90A from FlexBoss; 200A requires GridBoss	200A (Requires the aGate)
<b>Benefits</b>	<ul style="list-style-type: none"> <li>Over 12 years in hybrid inverter space</li> <li>15K released 3 years ago</li> <li>Top-Rated Customer Support 7 days a week</li> <li>Up to 6 PV strings</li> <li>If EMP Hardened, warranties for lightning strikes</li> <li>Doesn't require excessive equipment for features</li> <li>Versatile Gen port</li> <li>Discover has 75 years in the battery business</li> </ul>	<ul style="list-style-type: none"> <li>Design</li> <li>Easy-to-use TOU programming</li> <li>VPP available</li> <li>Backup switch is simplest backup solution</li> <li>13.5 kWh of battery back up included</li> <li>Comes with RGM</li> </ul>	<ul style="list-style-type: none"> <li>GridBoss has load management and can combine multiple EG4 inverter models together</li> <li>GridBoss lessens the amount of AC wires needed for parallel systems</li> </ul>	<ul style="list-style-type: none"> <li>Black Start, starts AC PV with low batts</li> <li>Comes with 15kWh</li> <li>15 Year Warranty</li> </ul>
