RTS Repeater

1 Introduction

Radio Technology Somfy® RTS Repeater extends the range of the Radio Technology Somfy signal. It receives the signal from a Somfy control or sensor (or similar controller) and sends it to an RTS compatible motorized window coverings, awnings, screens, pergolas and rolling shutters. Indoor Use Only.

2 Installation

Plug the repeater into any 120v electrical outlet. It is important to place the repeater at least halfway between the motorized window coverings, awnings, screens, pergolas, rolling shutters and control. The red LED will blink on the repeater, indicating communication has been achieved.

Note: Visit <https://store.somfysystems.com/> to purchase an additional or replacement product.

This device is FCC certified and complies with part 15 of the FCC rules.
RTS compatibility: RTS transmitters are capable of operating any RTS motor.

BATTERY RECYCLING OR DISPOSAL
Discard batteries and electrical components following local codes or regulations. Recycle batteries and electrical components with designated electronic recycle centers.
