

TUBE PILOT OVERDRIVE

12AX7-Equipped Real Tube Overdrive Pedal with Warm and Expressive Sound

- 12AX7-equipped real tube overdrive pedal
- Warm and expressive sound with incredible dynamics
- Ranges from full-bodied blues to distorted classic rock and smooth modern lead tones
- True bypass for ultimate signal integrity
- "Built-like-a-tank" metal chassis
- Runs on TC Electronic Powerplug 9 (not included)
- 3-Year Warranty Program*
- Designed and engineered in Denmark

Nothing beats the classic 12AX7 vacuum tube when it comes to delivering soul-searching guitar tone; that's why it's a mainstay in musical instrument amplifier design. TUBE PILOT OVERDRIVE is highly maneuverable and powerful enough to satisfy any guitar ace with a burning need for tone. Equipped with a genuine, handpicked 12AX7, TUBE PILOT injects your sound with the organic, touch sensitive saturation of a vintage tube amp that dares you to push it over the edge.

Real Tube Overdrive

Unlike those pretend "tube" overdrive pedals, TUBE PILOT OVERDRIVE isn't just a facsimile of a tube preamp being pushed into distortion – it's an old school tube preamp being pushed into true natural distortion. Inside the pedal, you'll find the very same 12AX7 tube that has been used in a host of vintage and iconic guitar amps. By adjusting the Gain knob on the pedal, you control how hard the tube is working, from barely breaking a sweat – to kicking in the afterburners!

with Warm and Expressive Sound

Unparalleled dynamics

The tone and feel you get from TUBE PILOT OVERDRIVE is exactly the same as what you'd get from a tube amp. It's extremely-touch sensitive, and reacts to how you attack the strings, allowing you to use picking dynamics to seamlessly go between fat blues tones to rich, grinding rock sounds. Pick the strings softly for a warm and clean tone, or hit 'em hard for an organic bite with incredible warmth and sustain.

Build quality

Housed in a rugged, high quality metal enclosure to protect the tube circuitry, TUBE PILOT OVERDRIVE will serve you reliably around town – or on the road. Operating performance is ultra-quiet, and the true bypass technology maintains the integrity of your tone when the pedal is off.

You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own MUSIC Tribe factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous Warranty program.
