

## Use and Care Manual

### Wicker Outdoor 2-Person Day Bed with Adjustable Backrests, Foldable Cup Trays, and Gray Cushions

Thank you for purchasing this wicker outdoor day bed. Please read this manual carefully before use to ensure safe operation, proper maintenance, and long-lasting performance.

---

## 1. Product Overview

**Frame Material:** Hand-woven PE rattan over powder-coated steel frame

**Cushions:** High-resilience foam with gray polyester covers (removable, zippered)

**Features:** Two independently adjustable backrests, foldable cup trays on both sides

**Intended Use:** Outdoor residential (patio, garden, poolside, deck, balcony)

---

## 2. Important Safety Instructions

Maximum weight capacity per person: 300 lbs (total 600 lbs for day bed).

Ensure all backrest adjustment mechanisms are fully locked before reclining.

Do not stand or step on the day bed or cup trays.

Cup trays are designed for lightweight items (drinks, phones, books) – do not sit on them.

Keep children supervised while using or near the furniture.

Place on flat, stable surfaces to prevent tipping.

---

## 3. Adjustable Backrest Operation

Each side of the day bed features an independently adjustable backrest:

While seated or standing behind, locate the adjustment lever or pull-strap (typically at the back or side of each backrest).

Lift or pull the mechanism to release the backrest.

Move to your desired angle (upright, semi-reclined, or flat).

Release the mechanism and gently push back to ensure it locks securely into place before relaxing.

Repeat on the opposite side for independent comfort settings.

---

## 4. Foldable Cup Tray Operation

**To open:** Gently lift the tray from its stored position and rotate into place until it rests horizontally.

**To fold:** Lift slightly (if needed) and rotate back to the stored position.

**Weight Limit:** Do not place items exceeding 5 lbs on each tray.

Avoid placing hot beverages directly on the tray surface.

---

## 5. Cushion Care and Cleaning

**Removable Covers:** All cushion covers feature zippers for easy removal.

**Washing:** Machine wash cold on gentle cycle with mild detergent. Air dry only – do not tumble dry. (Hand washing recommended for longevity.)

**Foam Cushions:** Spot clean with mild soap and water. Do not submerge foam. Air dry completely before re-covering.

**Stain Removal:** Treat spills immediately with a damp cloth and mild soap. Avoid bleach or harsh chemicals.

---

## 6. Wicker and Frame Maintenance

Your day bed features hand-woven PE rattan over a powder-coated steel frame:

**Regular Cleaning:** Wipe wicker and frame with a soft, damp cloth to remove dust and debris. Dry thoroughly.

**Deep Cleaning:** Use a soft brush with mild soapy water for stubborn dirt. Rinse with a hose (low pressure) and air dry.

**Avoid:** Power washers, abrasive cleaners, and prolonged standing water on the frame.

**Steel Frame:** Powder-coated finish resists rust, but inspect periodically for scratches—touch up if needed to prevent corrosion.

---

## 7. General Outdoor Care Tips

**Weather Protection:** Although built for outdoor use, cover or store the day bed during extended periods of rain, snow, or harsh weather.

**Storage:** When not in use for long periods, store in a cool, dry place (garage, shed) or use a high-quality furniture cover.

**Cushions:** Remove cushions and store indoors during inclement weather or when not in use to prolong fabric life.

**Drainage:** Ensure the day bed is placed on a surface that allows water drainage—do not allow water to pool around feet.
