

Product Instruction Manual

USB C Car Charger Socket Dual USB Outlet PD & QC 3.0 Fast Car Charger Socket Power Waterproof with Switch for 12V/24V Marine Boat Motorcycle Truck RV

Product Features:

1. PD type C and QC3.0 usb car port. Type C Power Delivery 2.0 socket can provide ultra fast charging speed for USB C devices. Quick Charge 3.0 charging port can provide the fastest charging efficiency 4x faster than ordinary chargers.
2. The cable has a built in 10A fuse, which can provide overcharge, overcurrent, overheating and short circuit protection to ensure safety.
3. Designed with switch for energy saving and devices protection, expanding lifespan of devices.

Product Specifications:

Output Ports: USB+Type C

Power supply input: DC 12V-24V

Input Voltage: 12V-24V

USB output voltage: $\leq 24V$

Input current: $\leq 10A$

Output current: $\leq 6A$

PD fast charging max output: 36W.

QC3.0 fast charge max output: 22.5W.

Output of each port: DC 3.6V-6.5V / 3A, 6.5V-9V / 2A, 9V-12V / 1.5A

Materials: ABS

Package includes:

2x USB Car Charger

2x 23.7 Inches Wire with 10A fuse

How to install?

1. Drill a hole with about 1.13 inch, diameter by a hole opener.
2. Unscrew the fastening nut, put the USB charger into the hole and screw it tight.
3. The underside of this car USB charger is marked with "+" and "-" for plus and minus poles. Simply connect "+" to the positive pole of the battery, "-" to the negative pole.

Please Note:

1. For mobile phones that do not support fast charging, charge at normal speed.
2. For mobile phones that support fast charging, you must use the original charging cable or fast charging cable to achieve fast charging.
