

10000mAh Power Bank

User Manual | VWS-J08

Introduction

Dear customer, thanks for your trust in Vention. This manual is designed to provide you with all the information you need. Please read this manual carefully before use and keep it properly for future reference.

Specifications

Model: FKU
Material: Aluminum Alloy + PC + ABS
Interface: USB-C
Battery Capacity: 5000mAh (7.74V/38.7Wh)(5000*2)
Input (USB-C): 5V=3A; 9V=3A; 12V=2.5A; 15V=2A; 20V=1.5A (30W Max)
Output (USB-C): 5V=3A; 9V=3A; 12V=3A; 15V=3A; 20V=2.25A (45W Max)
PPS: 3.3~21.0V 2.15A (45W Max)
Output (Wireless Charging): 25W/15W/10W/7.5W/5W
Total Output: 5V=3A (15W Max)

Instructions for Use

1. The built-in USB-C cable allows both charging other devices and recharging the power bank itself.
2. Align your magnetic/wireless charging device with the wireless charging area to start charging instantly. You can also connect an additional cable to charge up to two devices simultaneously.
3. Use a USB-C charger with the built-in cable, plug it into a power outlet, and recharge the power bank. Alternatively, use another compatible USB-C charging kit.
4. This power bank not only supports 45W PD fast charging but has also passed the latest Qi2 certification, enabling up to 25W wireless charging. It is compatible with the iPhone 16 series and later models.
5. Disconnect the power bank once charging is complete.

Maintenance and Cleaning

Gently clean the power bank with a dry, soft cloth to avoid internal short circuits. Do not use corrosive cleaners as well.

Warranty and After-Sales Service

This product comes with a 1-year warranty. If there is non-human damage during normal use, please contact our customer service, and we will provide you with service and support.

The warranty does not cover damages caused by human factors, improper use, or failure to operate in accordance with the instructions provided.

During the warranty period, please keep the Purchase Receipt, Product Packaging, and User Manual for after-sales service purposes.

Notes

1. Do not store the power bank above 45°C or in direct sunlight. Do not put it in fire or any other hot environments.
2. Do not disassemble, repair, modify, or replace any parts of the power bank.
3. Do not drive nails into the power bank or hit it with a hammer.
4. Do not immerse the power bank in water or expose it to moisture.
5. The power bank may warm up during use, but if it stays below 45°C, it's safe to use.
6. Do not overcharge the power bank and try not to let it fully deplete to extend battery life.
7. Carry the power bank in a shockproof, moisture-proof bag and keep it away from metal objects like keys or coins to prevent short circuits.
8. Periodically charge and discharge the power bank to maintain battery health, even if it's not in regular use.
9. If the power bank becomes unusually hot, swells, or emits a smell, stop using it immediately and keep it away from fire.
10. Use good-quality charging cables; damaged cables can lower charging efficiency and pose safety risks.

Important Safety Tips

1. Never disassemble or modify this device yourself.
2. Keep it dry - avoid damp or wet places.
3. Charge away from heat sources like stoves or heaters.
4. Keep liquids away from the charging ports to prevent damage.
5. If your power bank gets wet, stop using it immediately!

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

*RF warning for Portable device:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

FCC ID: 2AT74-FKU
