

# QUICK START GUIDE

Read this manual carefully, and save it for future reference.

## CEILING MOUNT

Use the included screws  
~30 mm length to screw  
the wall plate into the  
ceiling.

Insert the camera base  
into the wall plate.  
To remove, pull the base  
away from the wall plate.

### LIGHT INDICATORS AFTER SETUP

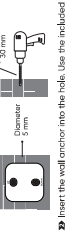

- Solid red light**  
Live stream is being viewed or a recording is in progress.
- Quickly flashing red light**  
Seen in use.
- Solid blue light**  
The device is working properly and no operations are running.

### INSTALLATION

Slide the base screw into the bottom of the camera. Rotate the locking pad clockwise to lock in the camera. Then plug the power into the camera.

## WALL MOUNT

Use the included wall plate to locate the position of the wall. The diameter of each drilled hole should be 3 mm larger than the diameter of the wall anchor. Please ensure that the wall can withstand more than three times the total weight of the camera and the base. Do not drill into electrical wiring.
